PROFILE SUMMARY

Full-Stack Mobile & Web Developer who has been building production applications since 2016 for aviation, healthcare, payments, HR, and e-commerce clients. Specializes in Flutter, Android, and PHP/Laravel REST APIs, with hands-on experience in React.js, Next.js, React Native, and Firebase. Builds end-to-end features across mobile, web, and backend, including payment integrations, real-time data, and AI-powered features using LLM APIs.

TECHNICAL SKILLS

Mobile	Flutter, Dart, Android, React Native
Frontend	React.js, Next.js, Flutter, Vue.js, jQuery, JavaScript, HTML, CSS/SCSS
Backend	PHP, Laravel, CodeIgniter, Eloquent ORM, REST API design
Databases	MySQL, PostgreSQL, Firebase (real-time data, location tracking)
Integrations	PayMongo, third-party and external API integrations, middleware
AI	OpenAI, Claude, and Gemini APIs; streaming responses; prompt handling; AI-assisted development (GitHub Copilot, Claude)

WORK EXPERIENCE

Full-Stack Web Developer | Webee Labs
MAY 2025 – NOV 2026

Laravel · React.js · Next.js · Flutter · React Native · LLM APIs

- Built and maintained Laravel REST APIs handling authentication, role-based access, and complex data workflows for web and mobile clients.
- Designed backend services that connect to LLM providers (OpenAI, Claude, Gemini), managing API security, prompt handling, and rate limiting.
- Delivered AI features such as chat assistants, content generation, and smart search, streaming real-time AI responses to React/Next.js and Flutter clients.
- Developed web apps with React.js and Next.js and cross-platform mobile apps with Flutter and React Native, building reusable UI components shared across products.

Flutter & Backend Developer | Codev Solutions Inc
JUN 2023 – AUG 2025

Flutter · Laravel · Firebase · PayMongo

- Developed and maintained cross-platform Flutter applications for iOS and Android.
- Implemented real-time driver location tracking with Firebase, giving operations live visibility of drivers.
- Developed an end-to-end ticketing and payment workflow using Flutter and Laravel REST APIs, integrating PayMongo for secure payment processing and transaction management.
- Designed and optimized Laravel APIs for authentication, ticketing, and workflows, using efficient database schemas and Eloquent ORM.

Mobile & Web Developer | AirAsia / IndraPH
AUG 2022 – SEP 2024

Freelance · Flutter · Laravel

- Maintained and enhanced RedEye, an internal incident-reporting platform used by AirAsia cabin crew.
- Built new features and UI improvements in Flutter to streamline crew reporting workflows.
- Designed and integrated Laravel APIs for authentication, data processing, and secure communication.

Flutter Developer | TelosHealth / FinaleHealth
JAN 2021 – FEB 2023

Freelance · Flutter · REST APIs

- Maintained and enhanced a healthcare app published on the Google Play Store, keeping it stable across releases.
- Built new Flutter modules to improve patient experience and app performance.

- Integrated REST APIs with the backend team to ensure reliable data flow.

Full-Stack Web Developer | Rev365 *APR 2021 – JUN 2022*

PHP · CodeIgniter

- Built middleware for Valore Books integrating multiple external APIs.
- Developed back-end services in PHP CodeIgniter and API-driven frontend features.

Full-Stack Web Developer | Awesome OS *OCT 2020 – AUG 2021*

PHP · CodeIgniter · jQuery

- Co-developed an HR and payroll management system covering recruitment, daily time records (DTR), and payroll.
- Maintained the CodeIgniter backend and built dynamic UI features with jQuery.

Full-Stack Web Developer | Naxum Online Marketing Service, LLC *AUG 2019 – SEP 2020*

PHP · Laravel · Vue.js · React.js · jQuery

- Built commission calculator systems and financial computation logic from scratch using PHP Laravel.
- Delivered multiple frontend projects with Vue.js, React.js, and jQuery.

Mobile App Developer (Android) | IdeaHub Solutions Inc *MAR 2019 – SEP 2019*

Android

- Maintained, enhanced, and built Android apps from scratch, including social media and calculator applications.

Mobile App Developer (Android) | Futuristech Studios Inc *JUN 2016 – JAN 2019*

Android

- Shipped 7 Android applications to the Google Play Store, including mobile ordering and merchant promotion apps built from scratch.
- Designed custom UIs and interactive animations, and maintained published apps to keep them stable and compatible with OS updates.

EDUCATION

University of the Immaculate Conception *2012 – 2016*

Bachelor of Science in Information Technology, Major in Networks

LANGUAGES

English (Fluent) · Filipino/Tagalog
